

Infogenx Recruitment Process & Job Roles SOP

Interactive-Style Process Flow & Learning Guide for Students & Candidates

SECTION 1 OF 8

Infogenx Recruitment Process – Corporate Overview

Infogenx Private Limited is a premier technology services and consulting organization with over 10 years of expertise delivering Smart Application Development, Intelligent Process Automation (IPA), Advanced Data Analytics, AI, and Cloud Infrastructure solutions across India, Australia, and international markets.

This document transforms the standard recruitment SOP into a visual roadmap so students and job applicants can easily understand each step of the hiring and onboarding journey before their assessment.

Core Operating Model

Infogenx operates with 30–50 full-time specialists supported by extended global delivery talent across offshore regions including Australian Time Zones.

Engagement Flexibility

Offers multiple career entryways: Full-time Permanent positions, Contractual/Freelance tracks, and Structured 6-Month Internship pathways.

Requirement & Job Role Definition

Before hiring begins, engineering leads establish precise skill profiles, technical stacks, and experience expectations. This ensures candidates are evaluated against clear operational needs.

Stack / Domain	Technologies & Capabilities
Web Stacks	MERN, MEAN, MEVN, LAMP, Modern PHP (Laravel, CodeIgniter)
Mobile Engineering	Native (Android/Kotlin, iOS/Swift) & Hybrid (Flutter, React Native)
Agile & Python	Ruby on Rails & Django Stack (Python high-scalability backend)
CMS & Low-Code	WordPress, Shopify, Microsoft Power Platform (Power Apps, Power Automate)
Enterprise Solutions	Zoho Suite, Odoo ERP, Microsoft Dynamics 365, Business Central, SAP
Cloud, Data & IPA	AWS, Azure, GCP, Power BI, n8n Automation, UiPath, Python Web Scrapping

Technical Roles Snapshot

PHP/Django Developers, Cloud Engineers, UI/UX Designers, Power BI Analysts, n8n/UiPath Engineers.

Non-IT & Operations Roles

HR Executives, BDEs, Office Administrators, Executive Assistants, Content Managers.

Job Posting & Candidate Sourcing Matrix

Infogenx utilizes a multi-channel recruitment strategy combined with advanced Boolean search algorithms on LinkedIn to source candidate profiles across channels.

Category	Primary Channels	Target Candidate Profiles
IT / Technical Roles	LinkedIn, Naukri, Indeed, Upwork, Freelancer, Internshala	Full Stack Developers, Cloud Engineers, System Architects
Non-IT / Business Roles	LinkedIn, Indeed, PlacementIndia, Ladders, Facebook Groups	HR Executives, BDEs, Office Admins, Content Managers
Offshore / Remote Roles	LinkedIn Recruiter, Offshore Platforms, Direct Outreach	Australian Time Zone Specialists, Enterprise Product Support

HOW RECRUITERS FIND YOUR RESUME (BOOLEAN SEARCH)

1. Skill Combination

React AND Node.js

2. Filter Exclusions

Developer NOT Manager

3. Direct Candidate Call

WhatsApp Outreach

Candidate Screening & Qualification

Initial screening verifies that applicants meet eligibility criteria and align with core technical requirements before advancing to technical interview rounds.

Key Qualification Benchmarks for Candidates:

- ✓ Clear communication skills and professional responsiveness during outreach.
- ✓ Strong foundational clarity in target stack (e.g., MERN, Python, PHP, Power BI).
- ✓ Immediate availability or short notice period readiness.
- ✓ Submission of verified intake forms and code portfolio links.

Shortlisted

Scheduled for Round 1

Technical & HR / Leadership Evaluation

Infogenx conducts a structured two-stage interview process designed to measure technical depth, practical problem-solving, and alignment with company culture.

ROUND 1

Technical Round

- Domain Depth & Architecture Discussion
- Live Coding / Logic Assessment
- Github / Portfolio Project Review

ROUND 2

HR & Leadership

- Cultural & Mindset Alignment
- Career Goals & 2-3 Year Aspirations
- Commercial & Salary Negotiations

2-STAGE EVALUATION & SELECTION MATRIX

ROUND 1: TECHNICAL

Live Coding • Architecture • Logic

ROUND 2: HR & LEADERSHIP

Culture Fit • Goals • Offer Terms

Selection, Offer & Compensation Framework

Commercial terms are computed based on engagement category—Full-Time Experienced, Freelancer, or Intern.

FREELANCER HOURLY RATE STANDARD FORMULA

$$\text{Hourly Rate (INR)} = \text{Monthly Take-Home Salary} \div 30 \div 8$$

Base Divisor: 240 Standard Monthly Hours

Example: Take-Home Salary ₹25,000 → ₹25,000 ÷ 30 ÷ 8 = ₹105/hr. 100-Hour contract = ₹10,500.

Post-Internship Permanent Conversion Pay Bands

- Diploma Graduates: ₹8,000 / month
- B.Sc. Graduates: ₹10,000 / month
- B.E. / M.C.A. / M.Sc. Graduates: ₹12,000 – ₹15,000+ / month

INTERNSHIP STIPEND PROGRESSION ROADMAP

Onboarding & Compliance Protocol

The onboarding phase smoothly transitions selected candidates into active team members through document verification and system provisioning.

Mandatory Verification Checklist

- ✓ Reference check with previous academic institutes / employers.
- ✓ Signed Non-Disclosure Agreement (NDA) for corporate data security.
- ✓ Entry into Shared Candidate Master Sheet database.

CANDIDATE ONBOARDING CHECKLIST STEPS

Internship & Candidate Operations Overview

Infogenx maintains active candidate operations and structured intern acquisition campaigns to continuously build internal capacity.
